**Average Duration ... 6+ hours**

**Prices from .. £170 / £180 / £200 / £220**

## Detailing Packages

### New Car Package

Your new car is a valuable asset that deserves proper protection. Our process begins with a thorough and meticulous cleaning, careful drying and preparation of your vehicle. This is followed by an enhancement polish, which effectively eliminates any scratches caused by the dealership's washing methods or early driving abrasions. To provide long-lasting protection, we then apply a two-year ceramic coating to the paint, alloys, glass, and calipers. Additionally, we take measures to safeguard the interior by applying fabric, plastic, and leather protectors.

**Prices .. £330 / £350 / £380 / £400**

We always recommend that if possible, you leave the vehicle unwashed and completely untouched to lower the risk of any correction being required. This may mean asking the dealer not to prepare the vehicle in any way.

### Optional Extras

- 1 year Ceramic Coating - £70
- 3 year Ceramic Coating - £175
- 5 year Ceramic Coating - £290
- Glass Ceramic Coating - £100
- Wheel Ceramic Coating - £100
- Wheels-Off Ceramic Coating - £200

### Single Stage Package

Our process begins with a thorough and meticulous exterior deep clean and decontamination, careful drying and preparation of your vehicle. This is then followed by a single-stage machine polish to enhance and bring back the shine to your paint by eliminating minor swirl marks and scratches that are primarily caused by using low-quality car washing methods. Afterwards, we apply a one-year ceramic coating to protect our efforts, along with a reduced maintenance plan. (other coatings are available POA)

**Prices .. £360 / £390 / £430 / £470**

### Soft Top Detail Package

Convertible or soft top hoods can be quite challenging to keep clean, and if not properly maintained, they tend to deteriorate, stain easily and lose their colour rapidly. Using special cleaners and bespoke brushes, we can provide a safe yet effective treatment for your soft top to leave it looking cleaner and refreshed.

**Prices .. from £75 / £95**

**Clean and reproofing .. from £125 / £145**

**Clean, recolour & reproofing .. from £290 / £340**

Every roof and its condition is different. For the most accurate pricing, please send me images via text/Whatsapp/email.

### Two Stage Package

Our two-stage correction package allows us to address the deeper flaws in your paintwork. After our full deep exterior clean and decontamination, we then tackle the harsher abrasions by cutting into them and then refine the surface to restore perfect clarity. This package allows us to go around the vehicle twice, therefore we have two passes to eliminate as many defects as possible and then polish up the vehicle, so you get the best of both worlds. Afterwards, we apply a three-year ceramic coating to protect our efforts, along with a reduced maintenance plan. (other coatings are available POA)

**Prices .. £590 / £670 / £740 / £825**

It's worth mentioning that while machine polishing is highly effective, it has its limitations. Deep scratches may not be completely removed through this process alone. However, we will assess the condition of your car's paintwork and provide suitable recommendations to address any deeper imperfections.

Through the process of machine polishing, we delicately remove a very thin layer from the paint surface, effectively eliminating imperfections such as swirls and scratches. It's important to note that the extent of work required will depend on the level of defects present in your car's paintwork...
